Please know that KLOVE is the ONLY radio station that I listen to in Fort Collins, Colorado. This stations provides me posititve and encouraging music 24/7 and its commercial free. It is a relaxing and calming source of music and soothes me especially in traffic. The loss to this service would be a great tragedy to me and other Christian in the area. This is my only source for Christian music and I am able to keep up on the latest and greatest songs and artists, which helps me as a singer in our churches praise band which serves the local community. I know there are many folks who would be greatly disappointed to see this service changed or eliminated. Case in point, one day I was driving down the street singing a song that was on the radio and there was a lady that was turning the corner as I was at the light, I looked at her and she looked at me and we were both singing along with KLOVE. We just smiled at each other knowing there were other believers in Christ, enjoying the music and peace that KLOVE brings to our lives. What a neat moment to share with a complete stranger over a wonderful radio station. Your consideration is greatly appreciated.
